## BRIEF HISTORY

Long before 1947 a building was constructed to impart technical education and it was popularly known as technical school.

Later this school was changed to Boys middle school and continued functioning like that for a quite long time. After 1947, the Boys middle school was shifted and the old building was converted into Girls High School. Under the Headmaster ship of very efficient teacher like Mr. Kabu, the school began to make praise- worthy strides towards education of girls and within short span of 10 years, seeing the process, the people had shunned old attributes, narrow conviction and apathy to women education. Thus, they began to send their girls to this school. The dedication of teachers resulted in the production of good number of matriculates, some of whom got employed. While some went for higher studies and are now working as doctors, engineers, principals etc.

With the introduction of 10+2+3 Pattern, this school was upgraded to a Higher Secondary Institution and few more buildings were constructed to house the increasing roll of the students.
